3. Vision, mission and ambition

Social issue

How can (civil) victims in war zones, more particularly in Ukraine, be helped. Due to the war, there is a great need among the population for humanitarian and medical support, in particular for protective clothing and equipment.

Vision

The Foundation Stand By Ukraine (the “Foundation”) is convinced that it should be possible to support the Ukrainians affected by the war in Ukraine by making available (financial) resources that are collected for this purpose by the Foundation.

Mission

In concrete terms, this means that the Foundation tries to collect financial resources to the best of its ability, and to use these resources to realize projects and thus achieve better living conditions for those affected by the war in Ukraine, such as improving the humanitarian and medical help, in the broadest sense.

Ambition

The aim is to collect as much financial resources as possible from companies, NGOs and individuals in the short term, and, with minimal costs, to use this money for projects selected by the Foundation.

4. Objectives, Target Group and Involvement

Objectives

According to the articles of association the objectives of the Foundation are: “the charitable and humanitarian support of the victims of the war in Ukraine” and “the performance of all further actions related thereto”.

To this end, The Foundation wishes to purchase items such as, but not limited to, protective clothing or have them purchased and subsequently made available, as well as equipment for medical recovery and rehabilitation in the broadest sense.

The provision of weapons is excluded from the support of the Foundation.

Target Group

This group includes the civilian population of Ukraine as well as Ukrainian military personnel and other persons who may be regarded as victims of the war which is going on in Ukraine.

Objectives to be achieved

The aim is to help as many people as possible who belong to the target group with the resources obtained, for as long as it turns out to be necessary.

Involvement local residents

The Foundation involves Ukraine residents in achieving its objectives. For example, people from the

Lviv-based Dutch originating company Symphony Solutions who, as a volunteer and unpaid, accompany victims to and from treatment centres and also visit them.

If so requested, also the purchase of items in Ukraine is financially supported by the financial and legal departments of Symphony Solutions.

5. Means and foundation costs
